Equipment of the crews

Whenever a car is in motion on any type of special stage and until the stop control, the crew must wear homologated crash helmets, all required safety clothing and equipment in compliance with Appendix L Chapter III - Drivers' Equipment as intended by the equipment manufacturer and have their safety belts correctly fastened. Any infringement will be penalised by the Stewards.

Equipment of the cars

In case a Safety Emergency console (Tracking System) is provided by the organiser, the system must be easily accessible for the driver and co-driver when seated with their harnesses fastened.

Each competing car shall carry a red “SOS” sign and on the reverse a green “OK” sign measuring at least 42 cm x 29.7 cm (A3). The sign must be placed in the car and be readily accessible for both drivers.

Each competing car must carry a red reflective triangle.

Incident on a Special Stage

In the case of an accident where urgent medical attention is required, the following applies:

- The SOS switch on the emergency console must be activated as soon as possible (if applicable).
- When possible the red “SOS” sign should immediately be displayed to the following cars and to any helicopter attempting to assist.
- As soon as possible, the red reflective triangle must be placed in a conspicuous position on the same side of the road as the car at least 50 metres before the car's position, in order to warn following drivers, even if the car is off the road.

Any crew which has the red “SOS” sign displayed to them, or which sees a car which has suffered an accident, and the OK sign is not shown, shall immediately and without exception stop to render assistance. All following cars shall also stop. The second car at the scene shall proceed to inform the next radio point. Subsequent cars shall leave a clear route for emergency vehicles. All crews stopped by this procedure will be allocated a time according to FIA RRSR and [CNRB Regulations](#) - Art. 52.

In the case of an accident where immediate medical intervention is not required or of a car stopping for any other reason on or beside a special stage, whether temporarily or permanently, the following applies:

- The OK switch on the emergency console must be activated within one minute (if applicable).
- The green “OK” sign must immediately be displayed to the following cars and to any helicopter attempting to assist. If the crew leaves the vehicle, the “OK” sign must be displayed so that it is clearly visible to all following crews.
- The red triangle must be placed in a conspicuous position on the same side of the road as the car by a member of the crew at least 50 metres before the car's position, in order to warn following drivers, even if the car is off the road.

situations, this may be replaced by an evident and clearly understandable sign language shown by the crew outside of the car:

- An arm and thumb up to indicate “OK”
- Crossed arms above the head to indicate “SOS”.

No flag other than the Red Flag may be deployed at any point in a special stage.
